-

ACADEMIC PROJECT

Apparel store website

Jan 2024– May 2024

Frontend: ASP .NET with C# as programming Language

Backend: Microsoft SQL Server Express Edition

I addressed the lack of a comprehensive and user-friendly platform for individuals to buy apparels

Email Sending feature: When User confirm their order mail is sent to their respective Mail Id

HOBBIES

SPORTS ENTHUSIAST: Represented my department in inter-department Cricket matches.
